To Whom It May Concern,

I am writing to wholeheartedly recommend Parker Long for acceptance into your company. As their former instructor and mentor as the Associate Artistic Director of the Colorado Conservatory of Dance, I have had the privilege of working closely with Parker and witnessing firsthand the depth of artistry, thoughtfulness, and professionalism they bring to the studio each day.

From the beginning, Parker distinguished himself with a strong technical foundation, an intentional approach, and a natural facility for movement. He approaches class with discipline and clarity, consistently applying corrections and striving for growth with a maturity well beyond his years.

In the studio, Parker is a dependable and inspiring presence. He is respectful, quick to collaborate, and consistently supportive of peers. His work ethic sets a standard for others, and he contributes positively to the culture of any rehearsal environment.

I am confident that Parker will be an asset to your company and rise to the challenges and opportunities you provide. He brings talent, artistry, discipline, and a genuine passion for dance—qualities essential for a successful professional career.

Please feel free to contact me if you require any additional information. It would be my pleasure to speak further about this exceptional dancer.

Sincerely,

Danny Ryan

Co-Director - Southeast Ballet Conservatory
